

DIMENSIONAL HAIRSTYLES

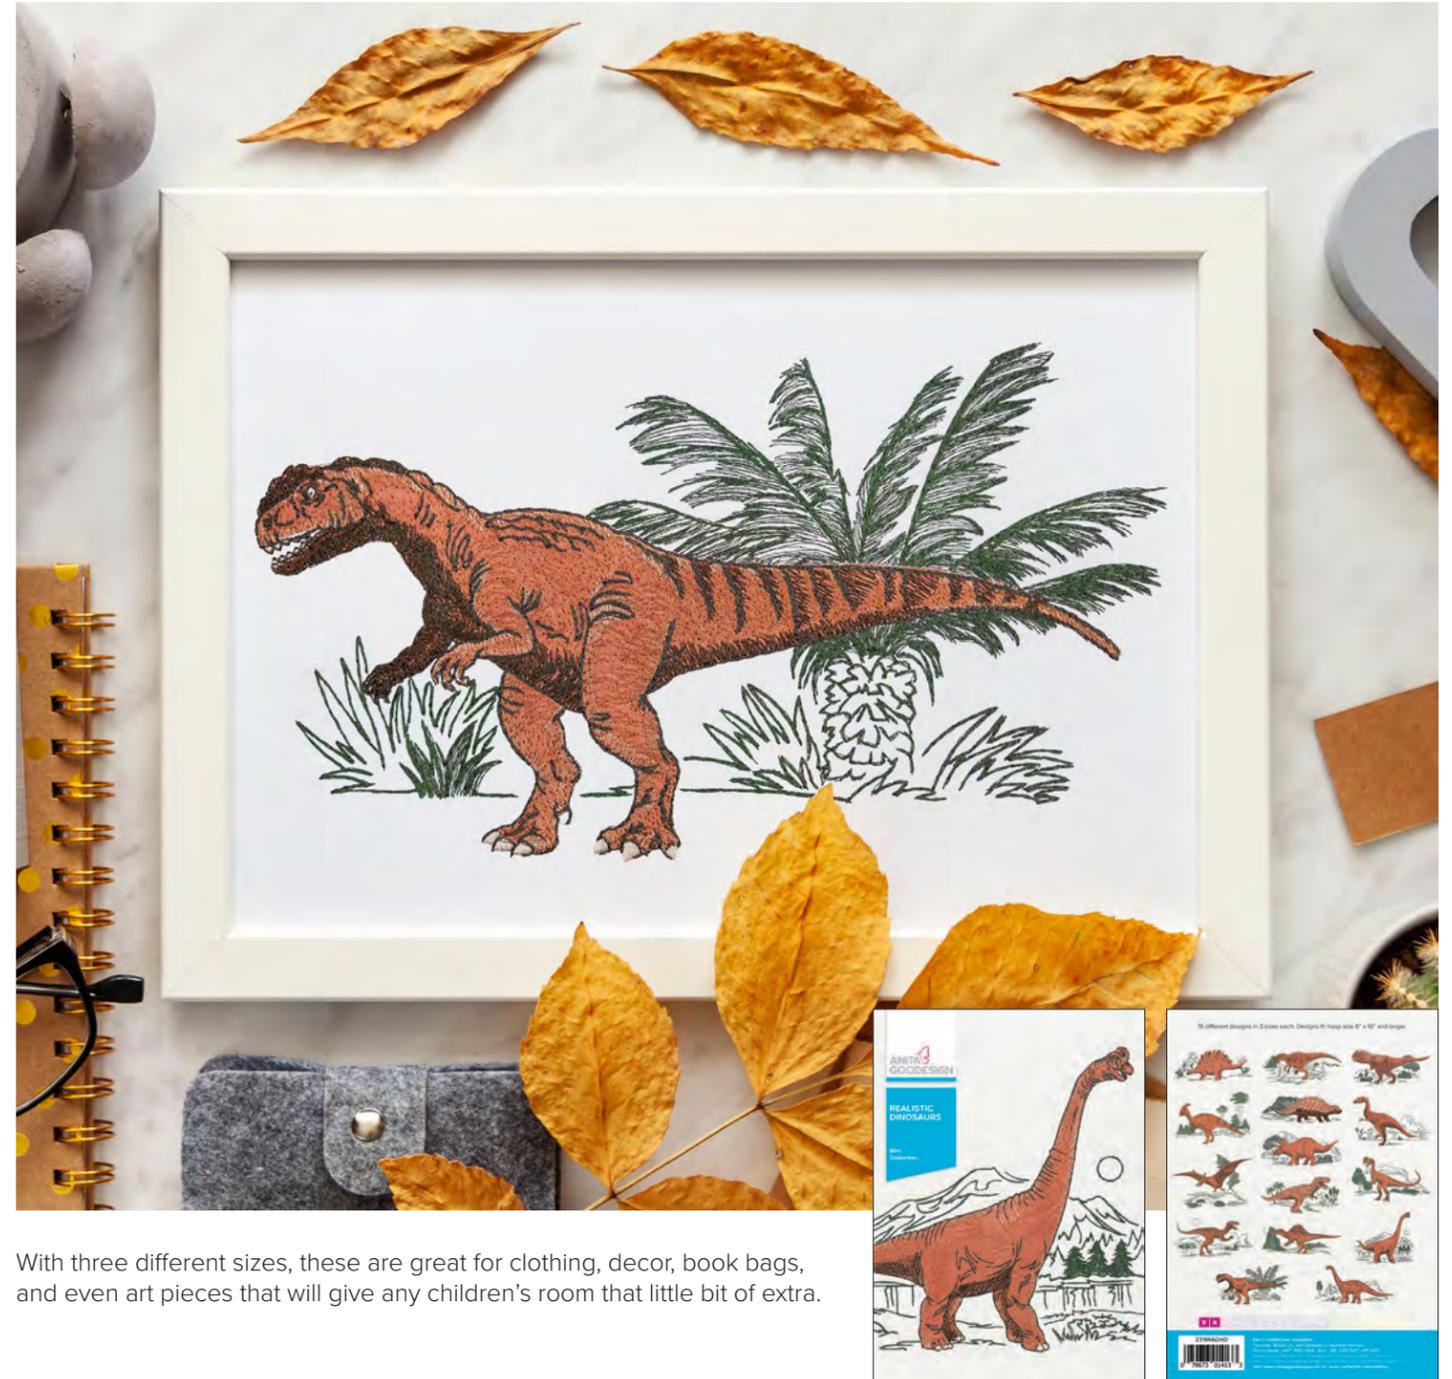

Each of these Dimensional Hairstyles is made of two separate hoopings to create a unique three-dimensional finished design. The first hooping consists of a portrait-style embroidered woman, which we stitched directly onto medium-weight cardstock using greyscale threads for a classically beautiful look. The second hooping creates a floral hair accessory which features combinations of pastel and jewel tones to mimic fresh flowers.

When the two elements are combined to create the completed project, these Dimensional Hairstyles have gorgeous contrast and charm. With ten designs, this collection is perfect for wall and home decor; clothing, or anywhere you'd like to add classic beauty.

REALISTIC DINOSAURS

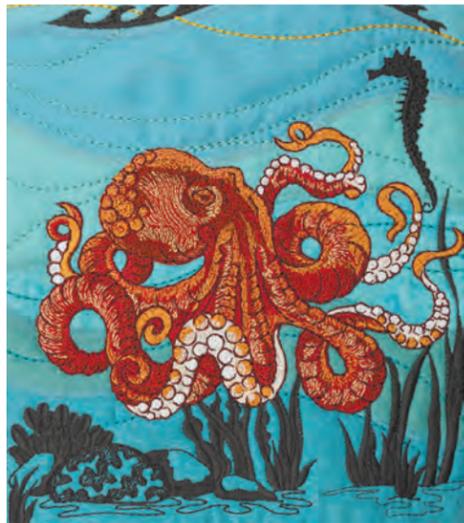

These prehistoric creatures are ready to come back to life with their gorgeous realistically stitched details. This collection features fifteen different dinosaur species, each created with detailed embroidery and appliqué designed to bring the wonder of these gigantic beasts to your stitch outs.

With three different sizes, these are great for clothing, decor, book bags, and even art pieces that will give any children's room that little bit of extra.

SEASCAPES SILHOUETTES

Seascape Silhouettes will take you on an underwater adventure. Created using our landscape appliqué technique, each scene is made from various shades of blue fabrics that convey the ocean's depths. Each block is then topped with a layer of semi-sheer shimmering organza that gives the illusion of movement and the sparkle of the sea. The Seascape Silhouettes are then completed with a variety of creatures from all parts of the deep, each hand-digitized using detailed, realistic stitching and combined with swimming silhouettes.

PUFFY FOAM CRAZY QUILT ANIMALS

This is one collection that will stick out above all the rest, thanks to our use of puffy foam! These designs are easily created in the hoop by combining appliqué and puffy foam, and are accented with beautiful crazy stitches.

Traditionally used to create raised logos on hats and sporting gear, puffy foam is a fun way to create some bouncy dimension and visual interest within a design.

From mystical to realistic, each of these twenty different animals comes in three sizes; and they all have a unique and three-dimensional finish. Take your designs to the next level and give these Puffy Foam Crazy Quilt Animals a try for your next project!
