

BOTTLE VASES QUILT

Bottle vases are a whimsical and practical way to display flowers and greenery. With their elegant simplicity and clean lines, these vases allow the flowers to take center stage. This quilt is the perfect way to have fresh florals all year long, without ever having to water a thing.

For this collection, we incorporated neutral base and frame fabrics along with bold colored threads in order to make the blossoms pop. Each quilt block contains a different selection of flowers and foliage, accompanied by a vinyl accent to give the appearance of glass vases.

NEGATIVE SPACE CHRISTMAS

In art, Negative Space represents the space between, and uses detail around the subject to emphasize it. It's almost like an image within an image! This is our modern take on some classic Christmas sayings.

Each of the 20 designs features elaborate straight stitches, creating motifs and flowers and festive holiday shapes that surround each letter to create the Negative Space. Every inch has intricate details such as stars, bells and presents, making this collection versatile and timeless. The tonal color palette brings a modern design touch to the ancient tradition of Christmas.

ANTIQU KEYS

Did you know that keys have existed for millennia? Over all those years, they have evolved hundreds of times, even to the point where they now work remotely without ever having to turn inside a lock!

Though we love the digital world, we still appreciate the thought and craft of the analog world. This collection of locks and keys has been designed to remind us of the deeper meaning and tradition of keys.

Freedom, enlightenment, love; all things that remind us of keys, perfectly embodied in this collection of beautifully stitched antique designs.
