## HARLEQUIN BLOCKS

Though Harlequin today is known by its distinct diamondinspired pattern, Harlequin's roots started in Italian Renaissance! Known as jesters, and witty tricksters, the Harlequin costumes were made from fabric scraps that featured the quintessential pattern. In the mid-twentieth century, the pattern was revived by the fashion industry, and of course remains popular today in quilting.

The harlequin pattern of this collection may be the most eye-catching part of this quilt, but the trapunto is the main event! Each block features simple patterns, lifted with extra layers of batting and highlighted by the ornate echo stitches. In this tutorial, even if you have never even heard of trapunto, we will guide you every step of the way making it quick and easy for everyone from novice to advanced embroiderers.

## REVERSE CUTWORK BLOCK PILLOW

Reverse cutwork is unique in that it starts out like regular cutwork, but then appliqué fabric is added to the back of the hoop. Satin and bean stitches are added to secure and emphasize the designs. This collection creates a gorgeous combination project that combines two fabrics for maximum effect. Each block is quarter-turned and then joined into a group of four to form a gorgeous cutwork pillow.

These twelve designs are specially digitized to be compatible with an embroidery machine cutwork needle, so you won't have to lift a finger to cut the fabric!

## PRINTED FABRIC STATIONERY

Now, more than ever, letters to loved ones are a great way to show how much you care! In a fast-paced world like ours, taking the time to hand write a card or letter has a big impact on those who receive them. If you also love embroidery, you can combine two of your passions by making a beautiful and personal gift for someone you love.

This collection features 4 different stationery styles with accompanying note paper and liners, and printed fabric PDF's with additional color ways to work with. In this tutorial, you will learn how to use printed fabric for a totally unique and professional-looking embroidered card.

## CHINA BLUE QUILT

This unique quilting collection draws its inspiration from the gorgeous designs of fancy china dinnerware. The mixture of motifs and patterns in blue and white tones was created as part of our Mix & Match quilting line, so it can be used interchangeably with other quilt collections.

Each of the twenty blocks is created with embroidery-only designs, so they stitch out effortlessly. We chose to use a tonal blue and white color palette to evoke memories of china place settings used during family meals, and to bring reminders of quality time spent together.
